Blue Mountain Park, Coquitlam—Site #27
Film Site of *Deleted* Scenes Following Bella's Graduation

Sadly, VanCityAllie dot Com seems to be GONE.

The Van City Allie blog entry (<http://www.vancityallie.com/2009/08/>) that helped us find and confirm coordinates for the area where the *Eclipse* film crew was seen setting up for the deleted post-graduation scenes has been deleted from the Internet.

Below is what we obtained from that blog site in 2013.

Friday, August 28th, 2009

Hey Twilight fans... I know it's been a while since I've blogged. This is actually the first set I've visited on *Eclipse* so far... even though it's been filming for a couple weeks. I've been SO busy with work and personal stuff that I haven't had a chance yet to visit all the sets... so, perhaps this is the beginning of the end for me? 😊 Ahhh, that's how it always is with Twilight sets... down the rabbit hole.

I got the chance to visit the set of the **Graduation Scene in *Eclipse*** today after work. I heard that Rob, Kristen, Ashley, Jackson, Peter and others were on set today filming the scene. Sadly I only got there for the tail end of it, so here are some of the photos I captured.

Here's your first look at the cap and gowns they are using for the graduation scene! Very cool. Should make for some colourful scenes on film... very excited to see.

...

The graduation scene was shot indoors in this school, filmed in the auditorium. After that, they **moved to a park nearby** where they proceed to shoot a different scene.
